TITLE	Statistical Data for Special Education Services, Fiscal Year 1970. Annual Report.
INSTITUTION	Illinois State Dept. of Mental Health, Springfield.
PUB DATE	70
NOTE	25p.
EDRS PRICE	EDRS Price MF-$0.65 HC-$3.29
DESCRIPTORS	*Emotionally Disturbed, *Exceptional Child Services, Facilities, Financial Support, Institutionalized (Persons), *Mentally Handicapped, Personnel, Professional Personnel, Residential Programs, *State Programs, *Statistical Data
IDENTIFIERS	Illinois

ABSTRACT

The report provides statistical data useful to persons responsible for providing special education and related supportive services in Illinois for the mentally retarded and the emotionally disturbed. The data concern children and adolescents in these categories, aged 5-20 years, who are receiving special education services primarily in Department of Mental Health residential facilities or on an outpatient basis. The data describe the facilities, resident population, students enrolled in programs, outpatient population, personnel, and funding. (KW)

FOREWORD

The purpose of this report is to provide statistical data useful to persons responsible for providing special education services and related supportive services. While this report is believed to be reasonably accurate, it is important to remember that the service statistics published reflect primarily what has been received from the facilities. There will be some error in that the reporting system used was not sufficiently complete to cover all possibilities of special education services involvement.

The statistical information on enrollments and services were obtained from report forms DMH-1068 ("Special Education Services, Statistical Recording and Reporting") submitted by the special education staff at the various Department facilities. Data on patients present May 20, 1970 were obtained from computerized statistical files of the Division of Information Services. The third Wednesday date, May 20, was selected as representative of the inpatient population because it was not influenced by home visits during the Memorial Day weekend at the end of May.

U.S. DEPARTMENT OF HEALTH, EDUCATION & WELFARE
OFFICE OF EDUCATION

THIS DOCUMENT HAS BEEN REPRODUCED EXACTLY AS RECEIVED FROM THE PERSON OR ORGANIZATION ORIGINATING IT. POINTS OF VIEW OR OPINIONS STATED DO NOT NECESSARILY REPRESENT OFFICIAL OFFICE OF EDUCATION POSITION OR POLICY.

ROLE AND FUNCTION OF SPECIAL EDUCATION SERVICES

Educational services for emotionally disturbed and mentally retarded patients have been broadened in order that the student patients can obtain the benefits of educational methods and techniques appropriate to their needs in residence and for return to the community wherever possible. The broader responsibilities of special education include:

1. Provision of highly specialized educational methods and techniques to assist in educational diagnosis and rehabilitation of students of any age.

2. Establishment of special education programs in Department of Mental Health facilities which have a relationship with the special education programs in public schools and in community agencies.

3. Assistance in training professional workers and conducting research in new educational methods and techniques.

The Department of Mental Health, through its special education services and programs, seeks the available care and rehabilitation for each eligible person.

SUMMARY OF STATISTICAL DATA

Facilities, Fiscal Year 1970

During Fiscal Year 1970, there were 25 residential facilities operated by the Department of Mental Health. The three not providing special education are Manteno State Hospital and William W. Fox Children's Center because they have few if any eligible patients and Peoria State Hospital has transferred all of its children and adolescents to Zeller Zone Center.

Special education services were provided at William Healy School of the Institute for Juvenile Research and Zone VIII Day School at Southern Illinois University as outpatient (day care) facilities.

Resident Population and Special Education

There were 4,556 inpatients aged 5 through 20 years old physically present as of May 20, 1970 at Department of Mental Health facilities. These can be grouped into the following classes:

Mentally Retarded		
Severe and Profound	2,631	
Moderate and Above	911	3,542
Mentally Ill		658
Unknown		356
Total		4,556

During Fiscal Year 1970, the average daily attendance was 1,158 students of all ages. These students received an average of 2.0 hours of special education per day.

Article 14 of the Illinois School Code requires provision for special education programs in public schools for handicapped children from 5-20 years old (3-20 for those with visual and hearing handicaps). Among the 22 residential facilities 1,865, or 41% of the 4,556 residents 5-20 years old were qualified under Article 14. Of the 1,865 eligibles, 1,183, or 63% were enrolled in Department of Mental Health special education services as of May 20, 1970. There were 9 facilities that reported a total of 51 students 5-20 years old enrolled in local public schools.

Outpatient Population, 5-20 Years Old

During Fiscal Year 1970 there was an average daily enrollment of 128 outpatients in special education at 9 facilities. These 9 consisted of 5 of the preceding 9 and 4 others not having public school students. The total resident and outpatient enrollment was 1,551.

Personnel

As of June 30, 1970, there were 244 staff members, each carrying a title in the Special Education series, employed at 25 facilities. The number of staff varied between 2 and 48 per facility, the median number being 6.

The 244 staff members consisted of 60 with administrative titles and 184 with non-administrative titles. The resulting ratio is 8.4 enrollees per non-administrative staff member (1,551/184).

Funding

During Fiscal Year 1970, an estimated $2,608,646 was expended for direct special education services at the 21 Department operated facilities which reported expenditures. Of this total, $2,300,438 was from Illinois General Revenue funds and $308,208 from all Federal sources. The average spent per patient was $2,312 from both sources.
